

# JT Photography Intern Application

Revision 1.0

What does an internship with JT Photography entail? We are looking for someone who is just starting out in photography, has a real passion for it, and is willing to learn and progress in the field. An intern does not receive regular pay for duties or services performed. However, this will most certainly lead to a paid part/full time position with us when you have progressed enough and we feel you can start handling sessions on your own. Even though this is not a paid position we do pay bonuses to interns who deliver excellent photos and service from an event. So what do you get in return?

- Constant on the job training working with us at real events.
- Additional private training sessions, one-on-one with us.
- Access to software, tools, and publications.
- Hands on experience with the latest Nikon camera gear.
- You will learn image workflow using Adobe software including Photoshop and Lightroom.
- Learn tricks of the trade and how to apply them at real events.
- Learn to manage the business side of photography.
- Update and build your Portfolio with your own work from Weddings & Sessions
